

Step 2 Men's Group Statement

Step 2 Men's Group is founded on the belief that spirituality is essential to our sobriety.

Our group is non-religious, but we do not oppose anyone's religious beliefs. We believe that respect for others and their beliefs is essential to spiritual development. Accordingly, we ask that you avoid criticism of others or of their religion or lack of religion, their race, ethnicity, national origin, age, sexual orientation, physical appearance, trade or profession, length of sobriety, or personal beliefs.

Our goal is to further our spirituality, our sobriety, and our personal development, not to confront or belittle others.

Always remember to be kind to others.
